The main new buildings of Batumi Development Group on the map of Batumi

We do not just build profitable housing, we calculate the profitability and payback of objects, think over and include premium-class infrastructure in the project, work with strict observance of all construction deadlines and do not save on materials, as we adhere to European quality standards.

We are one of the first who started building in Batumi objects of premium category with an emphasis on environmental friendliness and rich infrastructure of the selected location. We select a place where from the balcony you will see all the beauty of sunsets over the Black Sea and sunrise in the mountains of Adjara, and the road to the beach will take a few minutes.

Batumi Development Group builds residential complexes, commercial buildings and premises; private houses, townhouses, cottages, villas. The Group operates in the best price-quality ratio on the market. When you are buying apartment in BDG ownership rights are immediately issued without encumbrance.
